

Your Voice Counts

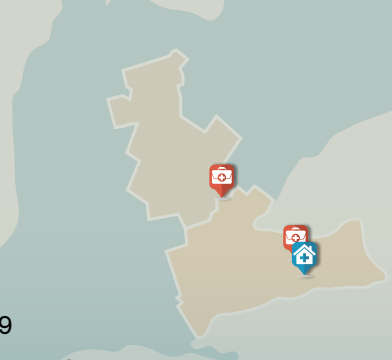

We at Entité² want to ensure that your voice counts and that you have an impact on French language health services planning, in order to improve access to quality services for the Francophone community. Take advantage of every opportunity to tell us about your needs, your priorities and the challenges you face. It is also important for us to hear what you have to say about your experiences, both positive and negative, with the current system.

Listening to Our Communities

To improve access to quality health services in French

Entité²

French language health planning for the regions of
Waterloo • Wellington • Hamilton • Niagara • Haldimand • Brant

PARTNERS

Entité² wants to reach the entire Francophone community in all its diversity. To this end, we reach out to all our partners to explore innovative approaches and engagement opportunities while developing new initiatives and partnerships. Please do not hesitate to talk to us about your projects.

SERVICES

The cooperation of health service providers (HSPs) is essential for improving access to French language services. As an HSP, you can contribute to our planning efforts by making sure you are on our list of HSPs offering services in French or helping with the collection of data on behaviours and trends among French-speaking consumers.

L'Entité² is funded by the Ontario Ministry of Health and Long-Term Care
